

Friends of Down to Earth

What is Down to earth?

We are a not for profit Community Interest Company and our mission is to re-engage people with the land and to help local people to grow healthy, nutritious and fresh food. We work locally, across Gloucestershire to help people, develop projects and make sustainable food production achievable.

How can you help?

By making a regular, monthly contribution you can support our core costs so that we can provide equipment, staff and awareness raising. £5 per month could buy a fork and spade set for a local project. £10 per month could help to run a popular seed bank event. Whatever you can give, you can make a real difference.

Friends of Down to Earth

Every penny we receive is carefully allocated and accounted for and our friends are a huge boost to our long term sustainability. We started in 2009 and have grown and developed steadily since then. We want to continue to provide benefit for the local community for many years to come. Your generous support can help us achieve this aim.

What do friends do?

Without you and our volunteers, we could not continue to make a difference. Each year our volunteers contribute over 2000 hours to our community projects. Your donations and ongoing support help us to ensure our long term future and support our work for the environment, local people and our wonderful local community.
